

Guys, Here are the decisions we have agreed upon since our meeting at the tourney. I will send out a blast announcement to our membership. Gimp, please add # 1 to the list of eligibility rules on our natprepweb page - thanks. frank

1. An athlete is eligible to compete in the National Prep Tournament for five years starting from and including the year he enters 9th grade

provided that he meets the age requirement.

2. We will retain the rule that says a wrestler must make scratch weight at his certified weight class at least once before the qualifying tournament. On the date he makes this weight his descent plan must allow him to be at or below the scratch weight

3. For team scoring purposes schools with one or more wrestlers who are in their 5th year of high school on the team entered at the National Prep Tournament will be counted in the PG division.

I am in the process of getting the officials rating info from Larry and will share it with you. I noticed the Md ref we had also worked the D 1 NCAA's. I have asked Greg for a financial report when it is available.
